

BAUS 2022: Welcome to BAUS 2022. The return of face to face...

13-15 June 2022 • Birmingham, UK.

What a pleasure it is to write this welcome to the BAUS congress for 2022. The three years that have elapsed since we all met and celebrated together seem like an eternity and I'm sure we are relishing the chance to catch up, share ideas, challenge each other, and set new directions for our specialty. With that in mind be sure to put the first event of Congress 2022 in your diaries, viz, the 'Welcome back to BAUS' party on Sunday 12 June. The rooftop terrace of the Birmingham City Library is a spectacular setting for what should be a wonderful celebration. See you on the Sunday...

The programme is extraordinarily wide-ranging reflecting both the breadth of our specialty and our perceptions of what success or failure can mean for a urologist. Is it the size of the minimal residual stone fragment or never getting the 'dreaded letter' from the GMC? Is it seeking the male body beautiful or more simply retiring at 50? Is it cloning a gene or helping deliver healthcare in rural Uganda? Truly a broad-reaching programme....

As ever, we also give delegates a chance to draw on the experience of a wide community to challenge their assumptions and hopefully improve their performance. Dr Marci Bowers in the BAUS guest lecture on being a transgender surgeon offering gender affirming surgery; Andy Beynon on what teamwork and customer service means as a Michelin starred chef; and SAS officer Anthony De Normann on developing true resilience on the Brecon Beacons with 120lbs on your back.

There are a host of innovations in this year's programme but forgive me for mentioning one in particular. This is the 'poster from every unit' initiative situated in the mezzanine area of the Exhibition Hall. Those with good memories will remember it was an idea floated in the TSO'B presidential manifesto in 2018 and it now comes to fruition at this year's congress. We truly believe that every unit

has something worth sharing about the way they practise urology but to date may not have had the chance to do so. It will be fascinating to see what units have chosen to tell us...

A highlight for any President of BAUS is to bestow the Association's medals on the worthy recipients at the annual congress. Once again, this year's recipients are hugely distinguished, and all add to the incredible timeline of distinction since 1945. To David Ralph, Olivier Traxer, Caroline Moore, Nitin Shrotri, Duncan Summerton and Shekhar Biyani I extend my warmest congratulations on behalf of all the members of BAUS.

It goes without saying that we are grateful to our sponsors who have put money into the congress to make it a success. There has been a fantastic response to the commercial opportunities at the congress this year which probably reflects a desire within industry to rebuild those relationships that may have gone a little quiet in the last two years. The pandemic created huge uncertainty around commercial sponsorship of surgical associations but fortunately industry support for BAUS never wavered. This year we have created far more time in the programme for networking in the exhibition so be sure to take advantage of that.

Thank you too to Harry Heald, Annabelle Masham, and Athene Madden in the BAUS office who have worked tirelessly to curate the programme, chasing speakers, sponsors, guests, presidents (!), hosts, medallists, chairs, venues, creches, hotels and menus. There has been a smooth efficiency to the process, and I congratulate them on a job well done.

My work at BAUS draws to a close at this congress and, as I pass the presidential baton onto Jo Cresswell, I simply wish her the very best of luck for her time as president. It is a truly landmark moment in the history of BAUS. She has been a delight to work with over the last two years and I'm sure will do a wonderful job.

One final word from me is to thank Ian Pearce and Joe Philip for putting together such a fascinating programme. There is genuinely something for everyone at this year's congress and I think it's a programme that will generate conversations galore as we rejoice in the chance to meet again and share ideas and thoughts on the job we do and the work that needs doing.

Have a fabulous three days

Tim O'Brien, BAUS President.

Satellite symposia

Tues 14 1315-1400	Diamond Sponsor Boston Scientific
Mon 13 1315-1400	Platinum Sponsor Karl Storz
Tues 14 0830-0900	Gold Sponsor Olympus
Mon 13 1730-1800	Silver Sponsor Coloplast
Tues 14 1730-1800	Bronze Sponsor Medac Pharma
Wed 15 0830-0900	Bronze Sponsor Intuitive
Wed 15 1330-1400	Bronze Sponsor Bayer

Online teaching and skills courses

Course 11	Teaching Course: Neurourology for the General Urologist
Course 12	Teaching Course: Paediatric Urology
Course 13	Teaching Course: Insights into National Selection
Course 14	Teaching Course: The Pathway from being a Medical Student to getting a National Training number
Course 15	Skills Course: CESR (Navigating the CESR Route)
Course 16	Teaching Course: Research Methodology
Course 17	Teaching Course: Male Factor Infertility
Course 18	Teaching Course: Penile Cancer
Course 19	Teaching Course: Management of Andrological Emergencies
Course 20	Teaching Course: Optimising Bladder Cancer Care - a 'Real-World' Masterclass
Course 21	Teaching Course: Good Urodynamics Practice
Course 22	Teaching Course: Thriving as a Consultant
Course 23	Teaching Course: Genomics for Urologists

All courses will be available FREE on the BAUS 2022 platform and available to view on demand for up to six months.

MONDAY 14 JUNE

E-poster sessions

Session 1 1400-1530	Stones, Imaging and Upper Tract Disorders 1
Session 2 1400-1500	Female Urology and Bladder Dysfunction 1
Session 3 1400-1500	Renal Cancer / Testis Cancer / Sarcoma
Session 4 1400-1500	Benign Andrology, Genitourineal Reconstruction and Male Infertility
Session 5 1630-1730	History of Urology

Plenary (P) and Sub-plenary (SP)

0900-1000	Fitness to Practice: Where Do We Stand Today? (P)
1100-1230	SAS Session – How Good Are We: Can We Do Better? (SP)
1100-1200	Section of Andrology Male Body Beautiful: The Underbelly of Supplements & Drugs in Young Men (SP)
1100-1200	Section of FNUU FNUU Updates (SP)
1100-1200	Section of Endourology Trouble Shooting – Large Upper Ureteric Stone (SP)
1100-1200	Section of Oncology Renal and Retroperitoneal Cancer MDT (SP)
1100-1200	Section of Trainees Inequality in Urology (SP)
1400-1430	TUF Guest Lecture (SP)
1400-1530	BURST (SP)
1400-1530	Medical Students (SP)
1400-1530	Surgeon, Chef: Same Difference (SP)
1630-1730	Section of Trainees Robotics (SP)
1630-1630	Section of FNUU The Future of Robotics in FNU (SP)
1630-1700	Section of Endourology GIRFT and Acute Stone Pathway (SP)
1700-1730	Section of Endourology International Endourology Guest Lecture (SP)

In-person teaching and skills courses

Course 1 1100-1300	Teaching Course: Clinical Leads – ‘The Difficult Colleague’
Course 2 1100-1230	Skills Course: Newer Ambulatory Treatment Options for Benign Prostatic Enlargement
Course 3 1400-1530	Skills Course: Newer Ambulatory Treatment Options for Benign Prostatic Enlargement
Course 4 1630-1800	Skills Course: Newer Ambulatory Treatment Options for Benign Prostatic Enlargement
Course 5 1630-1800	Skills Course: Preparatory Course for Urology NTN Interviews

TUESDAY 15 JUNE

E-poster sessions

Session 6 1100-1200	Female Urology and Bladder Dysfunction 2
Session 7 1100-1200	Andrology: Male Genital Cancers – Penile, Urethral, Testis
Session 8 1400-1530	Prostate Cancer 1
Session 9 1400-1530	Management / Governance / Education / Quality Improvement
Session 10 1400-1530	Stones / Imaging / Upper Tract Disorders 2
Session 11 1630-1730	Prostate Cancer 2
Session 12 1630-1730	General Urology (Male LUTS / Emergency / Trauma) 1

Plenary (P) and Sub-plenary (SP)

0730-0830	Breakfast Meeting: Orchestrated Networking (SP)
0730-0830	Breakfast Meeting: Anatomical Drawing (SP)
0730-0830	Breakfast Meeting: Dragon’s Den (SP)
0900-1000	Imposter Syndrome in Urology: Who do you think you are? (P)
1000-1030	President’s Address and Medals (P)
1030-1100	President’s Q&A (P)
1100-1200	BJUI Guest Lecture and John Blandy Prize (SP)
1100-1200	Section of Oncology Prostate Cancer MDT (SP)
1100-1200	Section of Endourology What is Stone Surgical Success? (SP)
1100-1300	Core Trainees in Urology (SP)
1400-1430	GIRFT Update: a ‘ten-point’ plan for recovery of urological services in England (SP)
1400-1530	Global Urology (SP)
1400-1530	Section of FNUU Stress Urinary Incontinence (SP)
1430-1530	Section of Andrology Joint BAUS & EAU: EAU Guidelines in the Spotlight - Part 1 (SP)
1630-1730	IBUS Session (SP)
1630-1730	Section of Andrology Joint BAUS & EAU: EAU Guidelines in the Spotlight – Part 2 (SP)
1630-1730	Section of Trainees Financial Wellbeing (SP)
1630-1730	Section of FNUU Female Urethral Strictures, Urethral Diverticula, Vaginal Swellings, Urethral Caruncle (SP)

In-person teaching and skills courses

Course 6 1100-1300	Skills Course: Transperineal Biopsy of Prostate LA
Course 7 1400-1530	Skills Course: Transperineal Biopsy of Prostate LA
Course 8 1630-1800	Skills Course: Transperineal Biopsy of Prostate LA

WEDNESDAY 16 JUNE

E-poster sessions

Session 13 1100-1200	General Urology (Male LUTS / Emergency / Trauma) 2
Session 14 1400-1500	Bladder Cancer: Non-Muscle Invasive
Session 15 1500-1530	Bladder Cancer: Muscle Invasive

Plenary (P) and Sub-plenary (SP)

0730-0830	Breakfast Meeting: History of Urology (SP)
0730-0830	Breakfast Meeting: Fellowships (SP)
0900-1000	Medical Regulation: The Dreaded Letter (P)
1100-1130	BAUS Guest Lecture Dr Marci Bowers (SP)
1100-1200	Section of Oncology Bladder Cancer MDT (SP)
1100-1200	UroLink (SP)
1100-1200	Section of Trainees Developing a Parallel Career as a Trainee (SP)
1100-1200	Section of Endourology The Management of Urinary Retention (SP)
1130-1200	JCU Guest Lecture Prof Bhaskar Somani (SP)
1200-1245	Widening Participation (P)
1400-1530	Complex Emergencies for the General Urologist (SP)
1400-1530	Section of Andrology Developing a National Framework for Cancer (BAUS PeCaN (UK)) (SP)
1400-1530	Section of FNUU Transgender Surgery for the General Urologist (SP)
1400-1530	Section of Trainees Urological Emergencies: Best Practice, the Evidence (SP)
1400-1530	Section of Endourology Renal Stones – Tag Team Debate (SP)

In-person teaching and skills courses

Course 11 1100-1300	Skills Course: Introduction to Robotics: Basic Robotic Skill (Urology)
Course 12 1400-1530	Skills Course: Introduction to Robotics: Basic Robotic Skill (Urology)
