

BAUS 2023 Annual Scientific Meeting

19-21 June 2023 • Birmingham, UK

BAUS June 2022 was certainly noteworthy for me personally, as Tim O'Brien passed on the baton of Presidency. It was also a very special meeting for everyone who participated. The event felt so refreshing after two years of COVID and the virtual world, and also quite different as BAUS the organisation entered a new and exciting phase. We could see all the behind-the-scenes work on widening participation come to fruition with a real sense of community and belonging for everyone.

BAUS 2023 promises to be even more exciting and innovative. We have learned so much about the value of face-to-face events and the types of sessions that flourish when we get together. The programme put together by Ian Pearce, Joe Philip and our excellent events team of Harry Heald and Athene Madden, is incredibly varied and informative. Widening participation

continues to be central to all that we do, and our first session considers how we use language and the impact it has, closely followed by the intriguing topic of unexplained urological symptoms. Each morning the first hour showcases one plenary session where we can all share important topics before moving to multiple rooms for more in depth topics.

Part of widening participation is regional engagement. It has been my pleasure to join so many of the regional meetings over the last six months and to see the very high standards of presentations. Thank you for making me so welcome. I am delighted that we can showcase the best papers from every region in our TUF-BAUS Best Regional Paper session. Thank you to TUF for sponsoring and providing a prize for the overall champion. Great to see the 'Poster from every unit' back again.

BAUS is a community for UK urology, however, we are also a very outward-looking organisation with partnerships and collaborations around the globe. I am delighted to welcome so many leaders of urology from around the world. Our international guests will contribute to many sessions with their subspecialist expertise and a lively look at the politics of urology. The theme of global urology runs through the whole meeting. Our BAUS community is compact enough for everyone to meet, interact with and debate the nuances of urology with all our key opinion leaders. Come and be part of the conversation.

All our specialty sections are delivering cutting edge science and debate addressing the controversies and myths which are currently topical. BSoT and BURST are once again delivering some exciting and novel sessions that are likely to attract many of

ePOSTER SESSIONS	
MONDAY 19 JUNE	
SESSION 1	Stones / Imaging / Upper Tract Disorders 1
1400-1500	
SESSION 2	Andrology, Genitourethral Reconstruction, Infertility & Male Genital Cancers
1400-1500	
SESSION 3	Female Urology and Bladder Dysfunction
1400-1500	
SESSION 4	Renal Cancer / Testis Cancer / Sarcoma
1400-1500	
SESSION 5	Management / Governance / Education / Quality Improvement
1630-1730	
SESSION 6	Tackling Inequalities in Urological Healthcare Provision and Training
1630-1730	
TUESDAY 20 JUNE	
SESSION 7	History of Urology
1130-1230	
SESSION 8	Prostate Cancer
1400-1500	
SESSION 9	Stones / Imaging / Upper Tract Disorders 2
1400-1500	
SESSION 10	General Urology 1
1400-1500	
SESSION 11	General Urology 2
1530-1630	
WEDNESDAY 21 JUNE	
SESSION 12	TUF-BAUS Best of the Regions
1130-1300	
SESSION 13	Bladder Cancer: Muscle & Non-Muscle Invasive
1400-1500	

ONSITE TEACHING & SKILLS COURSES				
	Time / Location	Course Title	Cost: BAUS Member / Non-Member	No. of Spaces
MONDAY 19 JUNE				
1	1100-1300 Hall 11B	Teaching Course: Paediatric Urology	£40 / £75	60
2	1100-1300 Hall 6	Skills Course: Ambulatory Treatment Options for Bladder Outflow Obstruction (ADVANCED)	£50 / £90	20
3	1400-1530 Hall 6	Skills Course: Ambulatory Treatment Options for Bladder Outflow Obstruction (BASIC)	£50 / £90	20
4	1630-1800 Hall 6	Skills Course: Ambulatory Treatment Options for Bladder Outflow Obstruction (BASIC)	£50 / £90	20
5	1630-1800 Hall 11B	Teaching Course: JCU: How to Write a Paper and Successful Grant Application	£40 / £75	60
TUESDAY 20 JUNE				
6	1100-1230 Hall 6	Skills Course: LA Transperineal Biopsy of Prostate & MP-MRI Prostate Interpretation for Urologists	£50 / £90	20
7	1400-1630 Hall 6	Skills Course: LA Transperineal Biopsy of Prostate & MP-MRI Prostate Interpretation for Urologists	£50 / £90	20
WEDNESDAY 21 JUNE				
8	0800-0930 Hall 4	Teaching Course: Simulated Course for Urology NTN Interviews	£25 / £35	12
9	1130-1300 Hall 6	Skills Course: Introduction to Robotics	£50 / £90	20
10	1130-1300 Hall 11B	Teaching Course: Good Urodynamics Practice	£40 / £75	60
11	1400-1600 Hall 6	Skills Course: Introduction to Robotics	£50 / £90	20
12	1400-1600 Hall 11B	Teaching Course: Updates in Stone Management	£40 / £75	60

NEWSROUND

us, trainee or not. Our SAS@BAUS group will welcome myself and Neil Mortenson, President of the RCS England, to their session discussing the way ahead.

Throughout the last two years, one colleague has never ceased to inspire me. Mo Belal is an incredible example to us all in how to face adversity, and I am delighted that he will give this year's BAUS lecture – this is one of those sessions you will talk about for years.

The BAUS medals are being awarded to an amazing group of people. It's always a tough ask to select from such a high calibre field – I am sure you will agree that all are very well-deserved. It is my honour to bestow the medals to such an outstanding group of colleagues. Congratulations to

James N'Dow, Rajeev TP, Abhay Rane, Grant Stewart, Suzanne Biers, Charles Reynolds. Join us at the Library of Birmingham to celebrate their achievements as you meet up with old and new friends.

I am enormously grateful to all those who have worked hard to deliver another incredible meeting. Once again, our sponsors are hugely supportive to BAUS. We are very lucky to have such warm and collaborative relationships. The provision of lunch in the Exhibition Hall gives us plenty of opportunity to talk to our industry partners. I reserve a particular mention to Ian Pearce who has worked tirelessly for BAUS as our Honorary Secretary over the last two years. It's not goodbye to Ian, however, as he continues as BAUS Vice-President.

A final message to you all, is that we really do welcome suggestions for sessions at our Annual Scientific Meeting for 2024. Please do talk with us early if you have ideas, as the programme is often fairly well developed by September for the following June.

Looking forward to seeing you all in Birmingham!

Jo Cresswell,
BAUS President.
